

## **ASSEMBLY & COMPONENT STATIONS**

We provide support for the production of high-tech transportation such as aircraft fighter and surveillance jets, military personnel planes, combat armoured vehicles, accessories, more. We understand and cater to the nuances of the aerospace and defense industry. Services include:

- janitorial
- workstations
- ground facility
- building infrastructure

## **HIGH EXECUTIVE FACILITIES**

Experienced with working in advanced-technological environments, TEAM Group is capable of providing full service upgrades, enhancing facility visual cleanliness and hygienic appeal, from employee amenities, to special visitor pathways and high end lavatories. Our team provide various types of industrial and commercial cleaning for highly trafficked areas. We also offer construction and spill related services in the event of episodic request or downtime. Some of our services include:

- corian restoration
- floor maintenance (mopping, polishing, waxing, burnishing, extracting, shampooing and more)
- waste disposal

## **COATINGS REMOVAL**

While some competitors struggle to define cleanliness, TEAM Group leads the industry in production as well as non-production industrial parts washing, baking and stripping methods for bare or repaint. Our industries most commonly serviced include automotive and heavy equipment manufacturing, aerospace and defense, government, commercial and residential.

Specialists in automotive production aid tool and carrier management, we provide services such as industrial coatings removal such as paint stripping, surface preparation, rust protection and degreasing. This includes serial products such as door clips, deck, hood props, skids, bumpers, and more. We offer fast, reliable processing and delivery. Some services include:

- chemical stripping
- thermal stripping/paint burn off
- abrasive blasting/soda
- dry ice blasting
- sand or steel grit
- calcium

### **EMERGENCY RESPONSE**

In the event of calls or emergency requests, TEAM Group is able to provide an industrial cleaning crew as requested. Hydro blasting machinery such as tanks, LAVs and cargo trucks, as well as specialized equipment needed to meet industry standards, available at a moments notice.
